

English Students will focus on understanding purpose and audience. They will:

- Use features of persuasive writing in speeches, letters and emails
- Analyse language used in different texts
- Write a speech

Students will continue developing their skillset for the qualification they are working towards (OCR Entry Level, Functional Skills Level 1 / 2 or GCSE Language)

Learning for Life

Drug and alcohol education, law and peer pressure.

Speech and Language Therapy

This term we are focusing on Career and Job Skills in SALT. Students will learn about interview importance through mock interviews and constructive feedback. Discussions on various career paths and a project on researching a chosen career will broaden their perspectives. They will also explore required skills and qualifications for different jobs, equipping them with essential knowledge for their future careers. This practical approach aims to prepare students for real-world professional scenarios, enhancing their communication and research skills.

Work Related Learning

Group work placements at local organisations including House of Tree (community initiative), The Entertainer warehouse and Amersham Town council, or individual work placements arranged by parents. A strong emphasis on teamwork alongside practical skills.

PE:

Pupils continue to work towards their Entry level qualification by doing Basketball, Table Tennis, Badminton, Football and using the Gym.

Science

Entry Level Physics – this includes energy types, conductors and insulators, what materials are best to insulate your hot drinks and home. Also, the different types of radiation. Completion of any outstanding coursework or tests for ELC.

ICT – Pupils in Year 11 will focus on developing advanced Digital Literacy skills through the use of Microsoft Word, PowerPoint & Excel. Pupils will complete project-based tasks requiring two or more of these applications. Pupils will also learn how to use the Internet responsibly by considering new laws established around the use of the Internet (e.g

Stony Dean School

Year 11

Humanities

Pupil will be studying how UK politics works – elections and our voting system. They will take part in tasks to develop a deeper understanding of what it means to be a good citizen and take an active role in the community. Community support will follow up on the work experience they began in the Autumn and are continuing in the Spring. Pupils will be working towards an entry level qualification in Humanities which is assessed via coursework, no exams.

RE: The key areas of study this term are: Reconciliation and forgiveness. Justice and injustice. Religion and War. Does religion have an impact on how wars start in the world or within families? Students will discuss religion and behaviour from a community perspective inclusive of

Maths

Most students focus on achieving a maths qualification.

Maths Entry Level Certificate provides basic and relevant mathematical skills. It demonstrates confidence in maths. The exams cover practical information for the following topics: Number and Calculation; Money; Time and Calendar; Measures; Statistics; Fractions; and Geometry.

Functional Skills Maths qualifications explores real life mathematical contexts. Everyday mathematics forms the basis the specification. The topics covered are use of number and the number system; use of measures, shape and space; and handling information and data.

Completing a qualification may be spread out over one to two years depending on the qualification and the needs of the student.

Art and Technology Rotation – Carousel Choices and Life skills

Resistant Materials – Students this term will begin an exploration into electrical circuits, how they work and how to build them. This will be incorporated into an electronic buggy project which will include wiring a motor switch and battery pack to operate their vehicle.

Art Pupils in Year 11 will be following the Arts Award Bronze accreditation. Pupils are making their own self led art work in a media of their choice. We will also be going on a gallery trip and this will be written up as a project as part of the Arts Award.

Food Tech - Pupils in Year 10 and 11 life skills will be cooking every lesson. This lesson is about getting pupils ready and confident to live independently. Pupils will plan, create, cook and evaluate dishes. We expect all pupils to try new things and participate in the theory as well as the
